HomeAway Filtered Messaging

HomeAway Filtered Messages

- Traveler contact information will be removed in messages.

- The email address for the visitor contact will be obfuscated as sender@messages.homeaway.com and will have a unique HomeAway email address that corresponds to the real customer email address.

- The response rate is based on the first reply to the inquiry.

- Any telephone number, website address, email address, or other information that is not pointing directly to the HomeAway website will be removed from the messages on its way from or to the guest.

- All HTML will be stripped from messages.

HomeAway Filtered Messages

- Lead Tracker Integration Challenges

- All guest information will be sent for newly created reservations.

- Customer information provided with inquiry: Name, Dates Requested, Number of Guests, Interested Property, Comments (cleaned and does not include URLs, phone numbers, etc.)

- Most Property Managers Will Be Moved By August 7, 2017
